- PDH Certificate will be transmitted to those who will attend webinar for full duration. All attendees are tracked via webinar software online.

**SPECIAL ANNOUNCEMENT**

As you all know, this is an election year for New York City Mayor.

The Municipal Engineers of City of New York (MENY) is proud to announce that several Mayoral Candidates will be addressing the Engineering and Technical Community at our Monthly Meetings from our virtual or in-person platform (depending upon COVID progress).

The Candidates who elect to join us will be invited to disclose their plans to the Engineering and Construction Industry for improving the City's Infrastructure. We anticipate having one Candidate join us each month. The Society will be providing the same five questions to each Candidate, so that our audience can evaluate their plans.

The Candidates will join us **at approximately 5:50 PM**, and their contribution is expected to be 30 minutes or less.

The Society welcomes the various Candidates to present at the Society's Monthly Meetings, and we encourage our entire Engineering and Technical Community to join us in receiving this information from the Candidates and to show our strength and interest.

The specific Candidate is typically not finalized when the Meeting flyer is distributed. The participating Candidate will be identified and introduced at the event.

**Disclaimer:** The Society of Municipal Engineers of the City of New York does not endorse, advocate for, or contribute funds to, any political party or candidate, for any city, state, or national office. Any views expressed by any candidate from the platform of a Society event, are those of the candidate, and do not reflect or express the views of The Municipal Engineers.
