

WEBINAR (VIRTUAL PRESENTATION) – October 27, 2021

SPEAKER: Keith Griesing, PE
Chief Technical Officer, Hardesty & Hanover

TOPIC: Johnson Street Bridge Replacement A Unique Bridge — A Unique Project

REGISTRATION: Registration is required to attend this webinar. Follow the instructions on the next page.

Webinar will start at 6:00 PM

Keith Griesing is Hardesty & Hanover's Chief Technical Officer. In this role he is responsible for the development and training of the firm's technical resources throughout its operating units. Keith works closely with the numerous business unit leaders to ensure the firm maintains a staff of professionals with the highest level of expertise in order to provide the quality services that have become synonymous with the H&H name. His design and management experience include all phases of the project life cycle from project planning and concept design to final design and construction for both domestic and international projects. A licensed professional engineer in 17 states, he has a Bachelor of Science from The Cooper Union and a Master of Engineering from the City College of New York.

Objective: Objective of this lecture is to gain understanding about various stages of Moveable Bridge:

- Introduction • Project Development • Bridge General Features • Movable Bridge Systems
- Fabrication Overview • Site Construction Overview

This presentation is certified for one (1) Professional Development Hour (pdh) /1 LU

NOTE: PDH Certificate will be transmitted via e-mail to those attendees who will attend webinar for full duration

It is free for MENY members (\$15 for non-members)
