

The Municipal Engineers

of the City of New York

Dear Design and Construction Professionals:

One of the ways to advance our industry is to assist Engineering and Architectural students by supporting those students who have excelled academically.

The Municipal Engineers of the City of New York (MENY) promotes this cause each year as we partner with industry leaders to provide annual scholarships to worthy students.

We are pleased to announce that the Municipal Engineers 2022 Annual Dinner Dance will take place on November 18, 2022, and the awards and scholarships will be presented at the Annual Dinner Dance as per tradition.

As our Society grows and delivers our message, we are seeking your assistance in support of our special MENY scholarship fund.

We share two options for supporting our cause:

1. A donation of any amount to the on-going Benline Fund, will be combined to offer as many \$2,500 scholarships as overall funding allows. All contributions will be acknowledged on our website.
2. Donations of \$2,500 and more, will receive special recognition as single or multiple "stand-alone" scholarship(s) in your firm's name or as a legacy scholarship(s) in the name of a co-worker or family member. Such contributions will be recognized at our upcoming Annual Dinner Dance.

You can donate by sending a check to MENY, subject "Scholarship Fund", or through PayPal directly on our website.

Thank you in advance for your donations. Our MENY scholarships are a great way to show support for our industry and to give back a little of the good we have all received in our professional careers.

Please contact the Scholarship Committee, at MENYScholarships@outlook.com for additional information.

Sincerely,

The MENY Scholarship Committee
